REGARDING CAR WORKS.

Four New Shops, Malleable Iron, Foundry, and Two Others.

About the Rate at Which the Big Company Will Increase.

Plans for Houses; To Grade Low Land; West Duluth Notes.

"We are working a few over 300 men just now," said general manager of the Minnesota Iron Car company. In about two months the number will be 500, and in a few months more it will be 600, and by the middle of summer I have no doubt there will be over 700 men in our shops. A great deal of work is being done, and the Minnesota Car company has not its shops into running order in less than two months.

The car company is constantly increasing its force, and in the past few months not a month has passed without a new man being added. In fact, the company is unable to get even enough, and has imported from the East a hundred up to date, nine men were brought in last week and fifteen will arrive next week. A steamer for the wheel shop, P. L. Collins, lately of the Washburn Harbory company of Jersey City, a man with almost a national reputation as a wheel maker is going there with a new set of wheels. The pay-roll of the company for December will be about \$150,000, in a month it will be \$160,000, in a month it will be \$170,000, and in a month it will be \$180,000. Not all this can come until the company has some new shops.

For instance early in the spring work will begin on a large malleable iron shop, about the size of the present foundry, and other shops will be large, with new buildings. The entire foundry, half of which is now used for wheels, will be devoted to wheels, and a new set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built. The new set of four-wheelers will be built, and the old set of four-wheelers will be built.

SOCIAL NOTES.

The Assembly Party and Minor Events.

A Lively Week.
Mrs. C. H. Howe entertained a few friends at dinner this afternoon.

Mrs. C. H. Howe gives a reception to her young friends this evening.

Miss Stearns, Miss Sutherland and Miss Leland held a reception yesterday at Miss Leland's home on West First street. A very large number of friends enjoyed their hospitality.

The pleasant ball given by the Assembly at the Spaulding last night was very successful. About 150 of the young people of the city enjoyed the occasion.

The children of the Lakeside Presbyterian church gave a very enjoyable entertainment at the town hall yesterday. A musical and literary program was rendered in a very commendable manner.

Mrs. A. W. Bradley has issued a large number of invitations to the young people of the city to a ball at her residence on West First street tomorrow afternoon.

Mr. and Mrs. Hall of 1414 East Fifth street, entertained a number of friends last night. Songs, recitations and games were features of the evening and a very pleasant time was spent.

CHANGED HIS DESTINATION.
A Very Surprised Young Fellow and His Friends.
He was a short, thick-set young fellow with a light complexion, who had been seen in the city for some time.

At this juncture the singer was interrupted by the appearance of a tall policeman, who laid his hand on the singer's shoulder.

The policeman said to the singer: "You're a liar, you're off for the cooler, and under the pilage of the blue-coated guard the singer changed his course for the bastille, and the zephyrs were then commencing to try with the wind of the morning, carried to the harbor reporter a dying cry of 'Then it's good-bye to you!'"

THE COST OF COLLECTIONS.
Why It Costs More Than It Seems.
The recent annual report of Collector of Customs Moore, published in The Herald, shows that it cost \$1.07 to collect \$1.00 of duties.

The cost of collection is a very important factor in the cost of goods. It is the cost of the collector's salary, the cost of the collector's office, the cost of the collector's expenses, and the cost of the collector's losses.

The cost of collection is a very important factor in the cost of goods. It is the cost of the collector's salary, the cost of the collector's office, the cost of the collector's expenses, and the cost of the collector's losses.

MILITARY AT PIERRE.

Excitement Intense Over the Action of the Government.

Pushing Squatters on the Sioux Reserve; A Fuss Fanned.

Items of News About Minnesota and the Northwest.

Pierre, S. D., Jan. 2.—Company A of the United States infantry, stationed at Fort Pierre, La Pierre, commanding, passed through this city today en route to Miles square, on the Sioux reservation.

Lieut. Poore has received instructions from Gen. Baugh to remain on the reservation until it is opened to soldiers by the President, and to preserve peace and order. It is learned that Lieut. Poore's orders from Gen. Baugh are to remain on the reservation until it is opened to soldiers by the President, and to preserve peace and order.

Stillwater built only \$100,000 worth of houses and permanent improvements last year. Logging roads on the Wolf river are in good shape.

Dr. W. R. Henderson of Paysonville has been arrested and has given bonds for his appearance to answer to the charge of conspiracy to murder, which resulted in the death of a child.

The Chicago & Northwestern Railway company has closed its draw over the Mississippi at Winona, and there will be no more boats this season. The river is now open with about six feet of water.

The prospect is very good for the establishment in Albert Lea of a flour and grain elevator with a capital of \$200,000, a considerable amount of which is already subscribed.

The report of improvements made in Winona during the year just closed are as follows: Roadways, \$100,000; business houses, \$250,000; railroads, \$100,000; miscellaneous, \$125,000; total, \$675,000. This year's improvements fall short of those of 1888 by about \$100,000.

MARYLAND'S LEGISLATURE.
The Legislature Assembles Today; Looks Like Jackson for Governor.
BALTIMORE, Jan. 2.—The new legislature assembled this afternoon and the city is crowded with rural politicians.

DO NOT LIKE IT.

Chicago Lines Object to Nebraska Corn Being Shipped to Duluth.
CHICAGO, Jan. 2.—A large proportion of the grain shipped from Nebraska to the Atlantic seaboard has recently been going around by way of Duluth, where it is to be stored awaiting the opening of navigation instead of taking the route by way of Chicago. The reason is that the railroads west of the Missouri river have fixed the rate from Omaha to Duluth on the same basis that applies from Omaha to Chicago, whereas it has been customary to make the different rate.

The trouble is that the Trans-Missouri association has objected to the lower rate. Some of the Chicago lines object to this, and today a meeting was held at Chairman Walker's office to consider the question of whether the Trans-Missouri association has a right to authorize rates on points in the territory of the Western Freight association that do not conform to the established differentials of the latter organization. An agreement could not be reached, and the Chicago roads appealed the matter to the executive board for arbitration.

WITH A VARIETY OF PAPER.
Members of a Variety Company Meet With Success.
BEAVER FALLS, Pa., Jan. 2.—When the members of a variety company arrived here today they found a group of paper passed around their somewhat dirty portraits upon the dead walls of the town. The Scotch commentators for several days have protested against the "Variety" and "Cupid's" papers which the company proposed to present and the pictures with which they advertised the show.

Monday, led by the Rev. H. H. George of the Reformed Presbyterian church, they went about tearing down the filthy posters. Orr & Lea, owners of the upper houses, objected in vain and then decided upon a sharp advertising scheme. Late last night they sent men over the town with instructions to cover every female picture with an apron, leaving only ankles and bust exposed.

Each apron bore the inscription: "This sign covered by order of H. T. Martin, W. S. McLaughlin, and E. P. Thompson. The performers will be given notice without fail." The scheme was successful. There was a tremendous rush for tickets. The Rev. Mr. George said the law decided against immorality and he decided to enforce the statute. There was no infidelity in the performance tonight, but there was no presentation of the managers.

BAUERSEN'S SENTENCE.
The "Q" Dynamite-Complotter to Be Released From Prison Today.
SPRINGFIELD, Ill., Jan. 2.—Governor Fisher has commuted the sentence of John A. Bauerisen, to take effect today at the expiration of a year's imprisonment, and he is now out on parole, having gone free this afternoon. Bauerisen was the instigator of the Chicago, Burlington & Quincy dynamite plot in December, 1888, of conspiracy and sentenced to the penitentiary for two years. The plotter, Bauerisen, was a strong one, signed by the president, judges, jurors, prosecuting attorney, and all the prominent railway officials, and it is understood the "Q" officials did not object to his release at this time.

Larsen was chief engineer of the Aurora division of the Brotherhood of Locomotive Engineers. He was charged generally with the management of the transportation of dynamite from the possession of the two conspirators arrested upon the Chicago passenger train. Bauerisen's reputation as an Aurora was first rate, and his arrest caused a considerable commotion among all classes of the community, as well as among the railroad men. In fact, when later developments showed that one of the conspirators was a prominent passenger train detective, there were many who stoutly asserted that Bauerisen was a victim rather than a conspirator.

On His Threat with a Carving Knife.
CHICAGO, Jan. 2.—Frank Jensen, a barber living at 533 Thirty-third street, made a desperate but unsuccessful attempt to kill a life yesterday afternoon. Failing in this attempt, he cut his own throat with a carving knife, after having injured several other men and wounded a woman. Jensen, a Swede, and his wife, who live at 533 Thirty-third street, are now in the hospital.

SHORTEST TAKES THE BUN.

How the Garden City Feels at the Growth of the Lake Route.

No Sentiment in Commerce and Short Route Takes the Bun.

An Appeal to Roads That Cannot Even Help Themselves.

Early last year the tight waged war and furious between the Duluth lines of transportation to the East and the Chicago roads. It was a brave battle and for brave stakes, the handling of the commerce of the Northwest. It had been fought every day in a most victorious fashion, neither side gaining what appeared to be a permanent advantage, and the Chicago roads doing business at a figure that left them no profit. But last spring the Duluth lines went into the fight armed with not only money, and lots of it, and they forced what is believed to be a permanent recognition and proper respect on the part of the other fellows. Since that time the traffic of this empire has been surrendered by Chicago lines. But now to judge from the following call for help by the Chicago Times, the hope exists that that two roads may be again left to make a struggle.

Last autumn The Times took occasion to point out the useful work the Burlington & Northern Railroad Company was doing single-handed to preserve the prestige and the more substantial advantage of Chicago as a receiving point for the products of the Northwest. It was more than meeting the rates to the seaboard made by the Northern rail cut-off across the North Star water, the Burlington & Northern alone of the Chicago connections strive to keep the Chicago route open by meeting the competition.

With all the growth of Chicago's commerce in 1889 the current commercial revenue was not kept up, receipts fell off sharply during the year, the decrease as compared with 1888 being about 1,625,770 barrels. The arrivals were only 4,400,000 barrels, against 6,025,770 barrels in 1888, while shipments were about 3,000,000 barrels, against 4,834,000 barrels the previous year. The less favorable showing is due to the increase in the outward movement via Duluth and the Southern line.

These lines and the northern Duluth lake route offer keener competition in the carrying trade for products of the Northwest than in Chicago was first thought probable. The more northerly route is greatly favored by the present open winter, which leaves the line free from the obstruction of snow. It is, moreover, current local complaint that beyond the Missouri river railroad rates the new made to discriminate against Chicago and in favor of this northern route.

There is no sentiment in commerce. Water runs in the channel of least resistance. Traffic follows the lines of cheapest transportation. If the surplus products of the Northwest can reach the seaboard more cheaply by the northern route than by Chicago that is, generally speaking, the line they will follow, and a large capital will in large measure move the crops that formerly were carried by American roads.

In a matter purely of business Chicago can make no sentimental appeals. Those would be puerile. Nor is Chicago in any just position to complain that the Northwest were more seriously concerned than it is. But the desire of Chicago to retain its position as the holding firmly its position as the great market and shipping point of the West, of which it is the undoubted commercial metropolis. The problem involved is one of business merely, and it must be solved by those strong roads leading from Chicago to the head of navigation upon the Mississippi and having their direct connections eastward to the seaboard.

A STREET CAR SQUABBLE.

Detective Benson and Several Toughs Fight in a Street Car.

Enslil Dago and Alex Boulter were two indicted Frenchmen on a street car yesterday, and in company with several other toughs indulged in a squabble. Boulter got up and began walking up and down the car using profane language and varying the diversion by administering divers and sundry kicks to the shine of his fellow passengers. Detective Benson happened to be a passenger. Not being of a nature to brook such unbecoming treatment he refused the fellows to desist, and on their order to obey attempted to arrest them. This precipitated a row, and a few seconds later or five fellows and Benson on the floor of the car, kicking and punching him. Benson, however, jumped up and began knocking them right and left.

They closed in on him, when a judicious display on his part of a revolver kept them back. Boulter approaching too closely got a smack on the head with the gun which made him stop. The others got out of the car without further ceremony. Benson tried to arrest three of those prominently engaged in the struggle, but only succeeded in securing two. These he took round the neck, one under each arm, and lodged them in the cooler.

This morning they were arraigned on the double charge of assault and abusive language. Both plead not guilty. The judge thought otherwise. Boulter was fined \$10 and costs on the first count and \$5 and costs on the second. In default he was committed to the county jail for forty days. Dago was remanded.

The Grave Diggers' First Yawning. Seemingly, for certain wretched invalids who toddle feebly along, though always looking as if they were going to die, but contenting to do it, they will, without dwindle away finally, but in the meantime, never having robust health, know nothing of the physical enjoyment, the zest of that existence to which they cling with such remarkable tenacity. They are always to be found trying to mend by tinkering at themselves with some trusty remedy, tonic or "pick me up" to give a tingly to digestion, or "help the liver." If such misguided folks would resort and adhere to Hostetter's Stomach Bitters it would be well with them. This superb invigorant supplies the stamina that the feeble require, by permanently reinforcing digestion and assimilation. It overcomes nervousness, insomnia, malnutrition, kidney complaints, biliousness, constipation, rheumatism and neuralgia.

"The Battles and Leaders of the Civil War" bound in appropriate finishes at The Herald bindery.

A NEW SECT.

The "Christian Scientist" Growing in Strength and Activity Here.

The "Christian Scientists" so-called, have developed quite a large membership in Duluth. Yesterday afternoon a meeting of the members was held for the purpose of discussing the feasibility of establishing a church. The unanimous opinion of those present, who numbered about twenty-five, was that it was not only feasible but desirable, and steps were taken at once to legally incorporate a society. The process of incorporation is simple, all necessary to do being to meet, vote to incorporate, with not less than three nor more than nine trustees. The notice to this effect has to be read three times in fifteen days, after which the incorporation can be legally entered upon. These preliminary steps have been taken, and the society will be in legal existence in about three weeks. Among those composing the association are the following: Mrs. Hammond, Mr. and Mrs. J. G. Owen, Mr. and Mrs. Robert Rankin, Mrs. George N. LaVague, Mr. and Mrs. J. W. Davis and Mrs. Hancey. The headquarters of the society are on the third floor of the Pastor-Stenson building. There is also a disputation of the doctrine, where "treatment" of the Christian Science kind is administered free. This is a prominent feature of this organization. Active members, their efforts in this direction a most part among the very poor. Services are held every Sunday. Mr. and Mrs. J. W. Davis of Milwaukee have charge of the rooms. Both are enthusiastic in this peculiar faith, as indeed are most of those professing belief.

Mrs. Davis has made it almost a life study, and is full of arguments in defense of its teachings. "We aim," said she, "to follow the example of Christ in everything. Christian Science is the whole of theology, instead of half, as is taught. By this I mean, it not only cures the body, but cures the soul alone but cures for sickness of both body and soul. There are a great many very honest people who find in Christian Science only the cure of sin and not disease. We believe that both are healed on the same principle."

Quite a number of local converts have been made since the organization started here. The expenses of the church are met and managed by the people composing the society. The missionary work now being done is to inculcate the teachings and induce the sick and afflicted to avail themselves of whatever benefits there may be found to be in the free dispensary.

"Christian Science," says one of the members, "is frequently confounded with mesmerism. As a matter of fact there is nothing of the kind about it, and it is as different from the so-called mind cure as day is from night. To be sure we believe we can help one another by our influence. It is necessary according to our doctrine that we divest ourselves of all prejudices. Our members in Duluth are practical examples of what Christian Science can do for humanity. They are free from trappings, and now all are enjoying perfect health. I could give several instances."

CITY BRIEFS.

The east side of Lake avenue is nearly impassable because of snow hummocks. Several theater parties will take in "Little Lord Fauntleroy" this and tomorrow evening.

Red, white and blue seems to be the favorite game at the Spaulding billiard room just at present.

There never was a time when Duluth people took so much interest in baseball matters than at present. The Duluth Elks held an important business meeting last night, at which the matter of a benefit was discussed. Duluth has but one club organized for winter sport. No interest seems to be taken in tobogganing, snow shoeing or kindred sports.

Hulst Merritt returned yesterday from a trip to the East where he has been for the purpose of soliciting capital for loans and investment. He had a successful trip.

The job printing department of The Daily News was purchased yesterday by J. J. LeTourneau and Winslow Lewis. LeTourneau and Prince, up till the first of the year, leased the job rooms.

Thomas O'Brien, special policeman and watchman, living at the corner of Seventh street and Eighth avenue west, and the owner of the celebrated four-wheeled rooster, is now the happy father of twins, a boy and a girl, which arrived last Saturday.

A meeting was held yesterday afternoon to make arrangements for the reception of Bishop-elect McElric. The following committee was appointed to take charge of the general arrangements for the banquet, which will be held on the evening of Jan. 9: G. G. Hartley, T. W. Hodgson, E. G. Gush, M. B. Harrison and H. B. Moore.

SPORTING NOTES.

A female baseball team is devastating the South on its route to California. The Cleveland league ball team is to be sent to Hot Springs in the spring. "Slick" says Orville Oddie is the finest amateur billiard player in America, but his game is 25 per cent poorer than any well-known professional.

Director Converse of the Pittsburgh club now says that his club would take \$100,000 to make the deal of old sticks back if they asked to be reinstated.

The Western association has invited the St. Louis ball club to join the League team. The deal of old sticks back if they asked to be reinstated.

Pitcher Mickey Hughes signed with the Brooklyn club last week. "This leaves only Vinson and Lovett unsigned, and the first-named has determined to jump the reserve rule and join the Pittsburghers.

Mike Dorgan, after a year's absence from the ball field, will again don the uniform and crack outtings, two and three-batters and "bombers" once more. Dorgan is in fine condition and reports his arm as all right again. If that be so he will prove a bonanza for some team next year.

Latham is having fun in "Frisco." He has an immense sweater made of white flannel, and on the front of it in large red letters appears the words "Chicago Brotherhood Club," while on the back is the well-known base ball war cry, "We Are the People."

"We Are the People." A highly recommended player, who will next season play short stop for the League team. He is said to be an excellent infielder, a strong batter and a fast base-runner.

Tom Brown, the crack left fielder of the Boston club, has signed a life contract more binding than is signed by the National League or Players Brotherhood, a pretty young girl, Christine McLean, a pretty young girl of San Francisco, aged 23.

The Boston club has insured John Clarkson's life for \$10,000. It is made to appear that "when the triumvirate made Clarkson the offer of \$10,000, and \$20,000 a year for five years, they stipulated as a safeguard to them he should insure his life for \$10,000, and turn the policy over to the Boston club. He consented to this, was examined in California, accepted the offer, and given policy. This he immediately forwarded to the Hub, and it is doubtless now locked in the strong-box of the Boston club."

ARE IN A BAD FIX.

The Duluth Stockholders in a Minneapolis Association.

They Want Their Money Back and Propose to Fight for It.

But Slim Chance of Their Ever Getting Much but Revenge.

An indignation meeting was held at the city hall last night to make investigation as to the methods of the American Building & Loan association of Minneapolis. The finances of this concern, according to the recent report of the state bank examiner, have been conducted in a very loose manner. The salaries are as follows: number of stockholders of the company in this city, and this meeting was held for the purpose of finding out what could be done.

Louis Rietz was elected chairman and E. H. Hanson, secretary. An abstract from Inspector Kenyon's report developed the fact that an inordinate amount was paid in salaries to officers of the association. The salaries are as follows: President, \$7500; secretary, \$5000; treasurer, \$3000; manager loan department, \$4000; attorney, \$3000; assistant treasurer, \$2000; superintendent of agencies, \$1500; actuary, \$1500; seven directors, \$1000. Mortgage loans to the amount of \$1,000,000 constitute the assets of the company, of which amount \$700,000 is deposited with the state auditor. There are 35,000 stockholders in the United States who are required to pay sixty cents per month on each share of stock. To redeem in seven years at 10 per cent interest, is as now claimed, would not be possible. It would take not less than eleven years, and perhaps longer.

It was the sense of the meeting that a committee be appointed to wait upon the company and demand back the money paid by the Duluth stockholders. If payment is refused, the next step would be to interview the governor, and ask him to place the association in the hands of a receiver, which he has proven to do under a recent act of legislature. The following gentlemen were appointed as such committee: O. H. Hall, C. O. Baidwin and Ed. Ingalls.

The committee will leave for this purpose next Tuesday, provided a sufficient amount is raised to defray their expenses. Each member, desirous of seeing the matter attended to in this way will pay \$1. A considerable part of the subscription is raised by an institution, and there is no doubt but the amount will be forthcoming when needed. Those members who have not subscribed, and there is no doubt but the amount will be forthcoming when needed. Those members who have not subscribed, and there is no doubt but the amount will be forthcoming when needed.

Said Mr. Rietz, who is one of the subscribers, and who takes an active interest: "It is a disgraceful up any building and loan association that such an institution should be allowed to do business under the name of Building and Loan association. It is no building association. To call it that is a misnomer. Judging from the fact that \$35,000 is paid annually in salaries to officers, it seems that their principal object was to provide fat salaries for the officers. The stockholders are simply stoogeholders. Among the shareholders there is a large number of female servants, who have put every cent above their earnings they could possibly spare, in many cases depriving themselves of many necessities in their anxiety to lay up a little for the future. One man paid up four years ahead, and several others had paid considerable in advance. I don't say that the subscribers, a warm welcome also awaits you at the lodge room. Make a strong showing tonight."

There are about 100 shareholders in Duluth, mostly poor people who have paid in sums aggregating several thousand dollars. A \$10 membership fee constitutes one of the loans. Third of the members present last night had invested \$310 in the concern.

TOMMY RUSSEL AT HOME.

How Little Lord Fauntleroy Looks and Talks off the Stage.

"Little Lord Fauntleroy" arrived this morning in Duluth. Tommy Russell, who takes the part, shows that mental superiority over most children of his age that has been apparent in his very clever work of the past two years on the stage. He is not one of those sickly little saints of the nursery who, because they are not arms or chaps, have renounced baseball and marbles, but on the contrary is a well-known professional boy. While he is not dressed with any view of self advertisement, he presents a certain picturesque appearance in a navy blue collar and the sailor's shield. The color of the suit with that of a long red sash contrasts strikingly with his yellow hair, which is closely cropped about his neck but is allowed to grow in profusion on the top of his head.

He has an animated face and uses such language as to show his continued association with older people. While waiting for his mother, Mrs. Russell, to come down stairs, Tommy entertained The Herald man this morning in regard to his own career.

"How long would you think I have been on the stage?" was his first question. "Well, I made my first appearance at the early age of 2. At 3 I began to talk, and since then I have had speaking parts. I am now 11. I was in St. Paul and Minneapolis about five years ago, when I played in "Frou Frou" with Medjeh, but my first big venture was to make a tour of the United States in New York a year ago last August, when "Little Lord Fauntleroy" first came out. I like to see an audience laugh heartily and applaud a good deal. I do not like a 'chilly house.' I hope Duluth audiences are not chilly."

When Mrs. Russell came in the boy talked away as unconcerned as the before. Mrs. Russell has some little to say about her son's prospects. Since his great success as the little lord, he has had numerous offers from managers who wished to put him at the head of a company in a new play. One of his best offers was from a New York manager, who, according to Mark Twain's suggestions, wanted to star him in "The Prince and the Pauper." Elsie Leslie, the girl who alternated with Tommy as the lord during the New York engagement, was to be either the prince or the pauper, and Tommy was to take the other part. Beginning with next season the offer of \$10,000 and \$20,000 a year for five years, they stipulated as a safeguard to them he should insure his life for \$10,000, and turn the policy over to the Boston club. He consented to this, was examined in California, accepted the offer, and given policy. This he immediately forwarded to the Hub, and it is doubtless now locked in the strong-box of the Boston club."

Almost any boy of Tommy Russell's age would have long since been spoiled by the wholesale admiration that has been heaped upon him. He has been entertained by the foremost people of the country.

SAULT STE. MARIE, LOWER MICHIGAN POINTS, BUFFALO, ROCHESTER, MONTREAL, OTTAWA, QUEBEC, NEW YORK, BOSTON and all points East. CHICAGO, MILWAUKEE, GREEN BAY, APPLETON, NEENAH and all Wisconsin points.

Over 100 miles shorter to Montreal, Boston and New England points than any other line. Over 70 miles the shortest line to any point east of Detroit, Mich.

WEST END.

Notes and Personalities of Interest From the Second Division.

Alderman Kennedy received a fine gold-headed cane from the congregation of the new Norwegian Lutheran church as a New Year's present in recognition of the free use of his hall for church services during the past year.

Supper will be served tonight at the Easter reading rooms from 6 to 9. Grid-dle cakes of all descriptions, waffles, pancakes, buckwheat cakes and syrup, piping hot from oil stoves which Charles Pierce kindly loans to the society for the occasion, will form the principal parts of the supper.

A. C. Kasberg, who kept a hardware store here until this spring, but who now resides at Valley City, Dak., was a visitor here yesterday.

John Opdale of the Pioneer Fuel company, and Michael Fedje are both down with influenza.

J. E. Goodman, chief engineer of the Northern Pacific, registered at the Clarendon hotel yesterday.

Daniel O'Connell was to have taken possession of the Garfield house last Tuesday, but the present proprietor refuses to move out. A law suit will probably result.

PERSONAL.

General Manager D. H. Bacon of the Minnesota Iron company, is slowly, but it is hoped steadily, improving. He has been very near death and is still very ill. The trouble has been typhoid pneumonia, and his friends now believe he will come out on top.

The little child of Mr. and Mrs. W. W. McMillan, who has been seriously ill, is now thought to be better.

Misses Mitchell and Simpson who have been visiting Mr. and Mrs. E. M. Noyes, returned to Minneapolis today. A large number of Duluth young people go this evening to Superior to join a number of society people there in a swell party.

Miss Addie Gagnon, of Oconto, Wis., and Miss Nellie Richards, of Menominee, Mich., who have been the guests of Mrs. Edward Jordan, during the holidays, returned last evening with letters in her Eva, the 5 year old daughter of Mrs. J. P. Mather, fell from a chair yesterday afternoon and broke an arm. Mrs. Mather was recovering from a long illness, but the accident to her little one will retard her recovery.

Gra W. S. Drum, United States army, inspector-general of the department of Dakota, came up from St. Paul this morning and looked over the city with Maj. Quinn. He left at noon for the South.

NEWS OF TODAY.

About 200 feet of tracks of Delaware, Lackawanna & Western railway caved in at Plymouth, Penn.

Hon. George H. Boker, ex-minister to Turkey and Russia, died at his residence in Philadelphia yesterday.

Alexander Bainhard, a colored hermit of Blackbird, Del., was murdered for Blatchford Kavanagh, the wonderful boy singer of Chicago, sang before Patti recently, who was enraptured with him and embraced him with tears in her eyes, and expressed the wish that he were her child.

Russia is reported to have ordered in France 1,500,000 repeating rifles. The Italian steamer Persia is ashore on the beach of Corsica. She had 130 passengers aboard when she went ashore. Six of them have been rescued, but the fate of the others is uncertain.

Yesterday an unknown person put poison into the coffee of the Dall family, who live near Mokena, Ill., and Mr. and Mrs. Dall died from the effects of it.

Can sell eighty acres near Superior for \$20 per acre. This is a bargain. J. A. Boogs.

Old fellows. This is Friday evening when No. 28 will meet at 7:30 sharp for installation of officers. I don't say that the old fellows, a warm welcome also awaits you at the lodge room. Make a strong showing tonight.

Smoke the Endion cigar, the finest in the market. W. A. Poore & Co.

The Herald bindery can turn out heavy ledgers, etc., just as you want them, and do the work for you promptly.

Can sell forty acres near stockyards for \$40 per acre. J. A. Boogs.

Unitarian literature furnished free upon application at Room D, Hunter block.

[illegible]

Duluth, Minn.

Which are specially adapted for the holiday season.

 Carpets taken up, cleaned and relayed at moderate prices.

Telephone 179. 207 W. SUPERIOR STREET.

If your dealer does not keep the style or kind you want, or offers you shoes without the **W. L. Douglas** name and price stamped on them, and says they are just good, do not buy. They are not good. They are cheap. They are not worth the good, do you want by return mail, postage paid. Dealers make more profit on any shoes that have no reputation. Buy on W. L. Douglas. Therefore do not be induced to buy shoes that are not stamped with the name and price of **W. L. Douglas** on the bottom and you are sure to get full value for your money. **W. L. Douglas** shoes are made in the United States and are the wearers of **W. L. Douglas** Shoes. In ordering, by mail, state whether you want the wearers of **W. L. Douglas** or Lace, London, cap toe, plain French toe, or narrow cap toe, and be sure to give your size. **W. L. Douglas** shoes are made and performed, as my shoes are made in a great variety of widths, sizes and half sizes. I return the shoes in good condition and perfect satisfaction or money refunded upon return.

\$3 SHOE FOR GENTLEMEN.

It is a fine seamless calf shoe, with Dongola tops and tank lace bottom. They are made in Congress, Button and Lace on London Cap Toe, Narrow Cap Toe, and Plain French Toe Lasts, in sizes from 5 to 11, including half sizes and in all widths. If you have been paying from \$4 to \$6 for shoes of this quality do not go so longer. One pair will wear as long as two pairs of common shoes sold by dealers that are not warranted by the manufacturer.

Our claims for this shoe over all other \$3 shoes noticed, are:

- 1st. It contains better material.
- 2d. It is more stylish, better fitting and durable.
- 3d. It gives better general satisfaction.
- 4th. It costs more money to make.
- 5th. It saves more money for the consumer.
- 6th. It is sold by fewer dealers throughout the U. S.
- 7th. It's great success is due to merit.
- 8th. It cannot be duplicated by any other manufacturer.
- 9th. It is the best in the world, and has a larger demand than any other \$3 shoe advertised.

\$2.50 SHOE **IS UNCEALED FOR HEAVY WEAR.** Best Calf shoe for the price.

\$2.25 SHOE **WORKING MAN'S.** Is the best in the world for rough wear; one pair ought to wear a man a year.

\$2.00 SHOE **IS EQUAL TO SHOES THAT COST FROM \$3 TO \$3.50.** One pair will wear longer than any shoe ever sold at the price.

\$2.00 SHOE **FOR BOYS** is the best School Shoe in the world.

\$1.75 SHOE YOUTH'S SCHOOL, gives the small Boys a chance to wear the best shoes in the world.

W. L. DOUGLAS \$3 AND \$2 SHOES FOR

W. L. DOUGLAS \$5 AND \$2 SHOES LADIES.
Both Ladies' Shoes are made in sizes from 1 to 7, including half sizes, and B, C, D, E and EE widths.
STYLES OF LADIES' SHOES

"The French Opera," "The Spanish Arch Opera," "The American Common-sense," "The Medium Common-sense." All made in Button in the Latest Styles. Also, French Opera in Front Lace, on \$3 Shoe only.

Consumers should remember that W. L. DOUGLAS is the largest and only Shoe Manufacturer in the world, supplying shoes direct from factory to retailer.

CONGRESS REASSEMBLES.

Both House and Senate Meet Today and Business Begins.

Not Much Change in Rules of the House from Here-tofore.

Important Measures to be Brought on in Committee.

WASHINGTON, Jan. 6.—Both branches of congress reassembled today after the Christmas and New Year's recess.

The most notable absentee in the senate was Senator Farwell of Illinois, who is a general rule very regular in his attendance.

He is confined to his home at Lake Forest, Ill., with a slight attack of malaria. In the house the peculiar spectacle is presented of the body meeting without rules.

There has been no meeting of the committee on rules appointed by Speaker Reed since the recess, and it is probable that legislation will run along for some months under general parliamentary practice.

Some of the best men on both sides, however, are opposed to this course, and are in favor of the rules being reported as early as possible.

It is understood by many that although the old rules will be largely re-adopted, there will be important changes proposed in those which relate to the mode of procedure in the house.

A clause will be inserted to enable the speaker to put a stop to filibustering motions, when their object is clearly manifest, and a change will be made as to admit of the addition of new legislation to general appropriation bills.

A morning hour for the immediate consideration of bills reported from committees such as existed prior to the Forty-seventh congress will promptly be provided for.

Several members of each house who remained in the city during the recess are suffering from the grip and were not present. A number of others who are at their homes out of town are also suffering from the grip.

A number of absentees were unusually large, but not so great as to interfere with the prosecution of the business in either branch. In the senate the most important work of the week, so far as can be judged now, will be done in committee.

Senator Plumb will press his Oklahoma territory bill before the committee on public lands, hoping to secure favorable action. Senator Platt will endeavor to have the bill authorizing the admission of Idaho and Wyoming into the Union as states ready for report from the committee on territories after its meeting Wednesday.

Senator Platt will also introduce this week a bill to enable senators to obtain titles to their lands. On Wednesday Senator Hisscock's committee on the celebration of the centennial of the discovery of America will begin hearing the statements of the committee representing the cities which are endeavoring to secure the honor of the world's fair.

It is probable that these hearings will be concluded this week. Then there remains another executive nomination to be considered.

Today's Nominations.
WASHINGTON, Jan. 6.—The President today sent to the senate the following nominations: Interior department, Claiborne J. Walton, to be pension agent at Louisville, Ky.; J. Lee Knight, to be receiver of public money at Topeka, Kan.; To be registers of land—Geo. F. Blanchard at Sidney, Neb.; W. H. Seaman, at Los Angeles, Cal.; J. E. Neill, at Iron, Mo. Department of Justice, Hiram Knowles, to be United States judge for district of Montana; Robert H. Paul, to be United States marshal for the territory of Arizona. To be United States attorneys—Isaac N. Alexander, northern district of Ohio; Theodore P. Shepard, eastern district of Michigan; Maurice D. O'Connell, northern district of Iowa; George W. Foster, district of Oregon; Albert D. Weed, district of Montana.

Those Rules.
WASHINGTON, Jan. 6.—Although the house committee on rules has not had a session during recess, Speaker Reed, who is ex-officio chairman, has had drafted a set of rules for the coming session. He has not yet submitted it to the other members of the committee and consequently is reluctant as to the changes proposed.

A DOUBLE TRIAL.
A Possible Wife Murderer Attempts to Commit Suicide.
TRENTON, N. J., Jan. 6.—Mrs. Kallin, the husband of the woman who was found smothered to death in bed Friday, took an ounce of arsenic and gashed his wrist and throat with a razor at his home this morning.

Dr. Shepard and Cooper were summoned, and had no trouble in staunching the flow of blood, as the jugular vein had not been severed. The cut in the throat was four inches long, but the wrist wound was immaterial. Owing to the largeness of the dose of arsenic, it acted as an emetic, and the doctor is of opinion that he was attempting his life because he was discouraged at the strong tide of public feeling against him.

IN CENTRAL AFRICA.
Major Wissman and the Arabs Have Another Battle.
ZANZIBAR, Jan. 6.—Another engagement has taken place between the natives and the forces commanded by Major Wissman. After severe fighting Major Wissman succeeded in capturing the natives, the native position near Sandani. Many of the natives were killed. Fifteen Germans were wounded. When the natives were driven from their position they left behind their rifles and ammunition of all kinds.

American Freight on the C. P. R.
OTTAWA, Ont., Jan. 6.—Canadian Pacific railroad officials state that there is a great movement of east-bound American freight over the road and that the company has received orders to supply 10,000 cars.

Smoke the Endion cigar, the finest in the market.
W. A. POOR & Co.

A LITTLE NURSEMAID'S CRIME.

Sent to Reformatory for Two Carefully Planned Attempts at Assassination.

BALTIMORE, Jan. 6.—Livia Williams, a 13-year-old negro girl, employed as a nurse in the family of John W. Dorsey of Elliott City, Md., has been sent to the Colored Industrial school, being accused of arson and attempted murder. Considering her tender years, her criminal propensities are remarkable.

A short time ago Mr. Dorsey lost by fire a corn-house and stable, and only by strenuous efforts was his handsome house saved. The origin of the fire was a mystery, and at the time no suspicion rested on any one. On Dec. 19, a few minutes after the nurse had been called to the lady's room, the infant was found in an upper apartment enveloped in flames, and was seriously burned about the body, face and head before the fire was extinguished. At the time the presumption was that the child had left the crib in which he had been sleeping, had thrown down the exterior and interior fenders of the fire-place in the room and thus caught fire.

On Dec. 27 the nurse was again reproved for some misdeed, and her husband, Dorsey, agreed to punish her daughter in the meantime ordering her to perform some household duties near the room where the baby had been put to sleep a few minutes previously. This time the family was summoned to the infant's screams. The fire was extinguished before serious injury had been sustained.

The heavy fenders were again thrown down, but not as if knocked down. Search in the story above, whether the nurse had done a half-hearted job, turned behind a wash-stand, and a partly burned match, both of which were barely lit, and the family's suspicions were confirmed, and the girl was placed under arrest.

NO TRUTH IN IT.
The Story of a Cardinal's Hat for Archbishop of Baltimore.
NEW YORK, Jan. 6.—The report has been current among the Roman Catholics of this city that another cardinal's hat was for sale, and that it was to be sold for \$100,000.

Leo upon an American prelate. The rumor originated in Milwaukee, and was spread by the archbishop of Baltimore, who is now in the city.

At Archbishop Corrigan's residence the story was denied. As the archbishop is the most popular as well as the wealthiest, arch-bishop of the Western hemisphere, Archbishop Corrigan would certainly have given some intimation of the pope's intention in such a matter. Among the cardinal's friends and associates, it has long been an open secret that if a second cardinal is to be selected for the United States, the choice will almost necessarily fall upon the archbishop of New York, in which case the red robes of the office were worn by his successor.

JOHN WARD'S REPLY.
To the Suit Brought by the New York Baseball Club.
NEW YORK, Jan. 6.—Voluminous papers filed in the suit brought by the New York baseball club against John Ward, which form the reply of John Ward to the suit brought against him by the club, were filed in the court today.

Mr. Ward's reply is a long and elaborate one, and contains many points of law. It is a masterpiece of legal argument, and is a credit to the skill of the lawyer who drafted it.

Ward claims that the contract which he made with John B. Day and Arthur Bell, the superintendent of the club, is a valid one, and that he is entitled to the position of pitcher for the club.

He also claims that the club is not entitled to the position of pitcher for the club, and that he is entitled to the position of pitcher for the club.

The suit of the Metropolitan Exhibition company against John M. Ward, which was filed in the court today, is a continuation of the suit brought by the club against Ward.

'TIS GETTING WORSE.

A Number of Deaths From the Influenza in This Country.

Fatal Character of the Disease Pronounced in the West.

Cold and Stationary Temperature the Best Remedy.

MILWAUKEE, Jan. 6.—Grip has got tight hold on Milwaukee and aided by the uncomfortably warm and damp weather, it is making rapid headway despite the efforts of the physicians.

The family's suspicions were confirmed, and the girl was placed under arrest.

At Archbishop Corrigan's residence the story was denied. As the archbishop is the most popular as well as the wealthiest, arch-bishop of the Western hemisphere, Archbishop Corrigan would certainly have given some intimation of the pope's intention in such a matter.

IF THEY DON'T VOTE.

If Negroes Don't Exercise Their Right They'll be no Trouble.

JACKSON, Miss., Jan. 6.—The election for city officers is in progress today, and so far all has been quiet. Rumors of a possible conflict between the whites and blacks have been in circulation for several days, but conservative men on both sides have been endeavoring to promote good feeling, and setting an example in the direction of deprecating acts not in every way consistent with the law.

JACKSON, Miss., Jan. 6, 1 p. m.—Voting is progressing slowly and quietly. Thus far no negroes have made application to vote, and as long as such is the case trouble is not likely to occur. It is intimated that an attempt will be made to vote them on mass, at least in south wards where McGill, candidate for mayor, has a fair chance for election. If such is the case difficulty can hardly be averted. Many negroes favor the Henry ticket or are neutral.

ABDUCTED AGAIN.
A Girl Where \$25,000 is the Source of Much Trouble.
ST. LOUIS, Jan. 6.—Allice Jackman has been abducted again. This is the youthful heiress who about a month ago was taken from her home in an abduction case. At that time she was in the custody of Mrs. Brothers, in whose hands she was placed by the humane society. Dr. Taylor, her guardian, she being an orphan, wanted her one morning. She was seized by Chas. Spink and others, placed in a carriage and taken to the house of the Good Shepherd; then she was taken to Chicago.

She was taken into courts and in due time the girl was brought back and on her own statement to the court that she wanted to live with her cousin, Mrs. Charles Spink, she was placed in her custody. This left the question of guardianship open. The girl is about 15 years of age, and is the heiress to about \$25,000. Since the above decision she has lived with the Spinks on Finney avenue.

Last evening she was sent to a store a block distant to buy some fruit. She did not return and a visit to the store showed she had not been there. The supposition is that some one had seized her and run away with her.

The West End Scandal.
LONDON, Jan. 6.—The trial of Arthur Newton, solicitor, Frederick Taylorson, his clerk, and Adolphus DeGallia, interpreter, who were arrested on the charge of conspiring to defraud justice in connection with the West End scandal, began before Magistrate Laughlin in Bow street police court today. A lady named Algernon Allie testified that she had resided in the Cleveland street house and that he had received money for immoral purposes. He had destroyed letters that he had received from Lord Arthur Somerset from the club in which he had been employed as waiter. He was imprisoned for the thefts. Lord Arthur Somerset becoming his surety. Witness stated that subsequent to the exposure of the scandal Taylorson had tried to induce him to go to America.

Greasers Murder Two.
FORT DAVIS, Texas, Jan. 6.—A band of Mexican horse thieves ambushed a camping party consisting of three men, two women and four children in a canyon near Chihuahua Saturday, and shot and killed two of the men. The murderers told the remainder of the party that they supposed them officers of the military guard was sent to arrest the Mexicans, and captured they will be summarily dealt with.

An Outlaw Released.
MACON, Ga., Jan. 6.—Willie Wallace the notorious outlaw of Harris county was rescued from jail in Hamilton at 3 o'clock this morning by a large number of masked men.

MARINE MATTERS.
Steamship for the Lake Superior Mining Company: The Tigra.
The Cleveland Shipbuilding company has launched the sixth steel steamer which has been built at its yard. The new vessel has not yet been named, and is known thus far only by the builders' number. It is owned by the Lake Superior Iron Mining company, and is the first steamer constructed for that company by the Cleveland company. She is 265 feet long, 28 feet over all and 35 feet beam, and has a triple-expansion engine.

The Union Drydock company has 100 men at work on the steamer Tigra, which was severely damaged on Grays reef. She was raised almost from stem to stern, mainly on the port side, and many plates and frames must be replaced. The rock that she brought down in her water-bottom is quite a curiosity. It is egg-shaped and about two and a half feet through.

The marine situation still centers on the ore-freight problem, says The Buffalo Express. The question is whether the shippers will pay more than \$1.10 from Escanaba. "I received a letter from an ore shipper today," said a broker, "asking me to put in some tonnage from Escanaba to Buffalo, but naming no figure. Of course I replied, asking for advance. It remains to be seen whether he is able to get it."

CITY BRIEFS.
There have been no local changes in the passenger rate situation since Friday. Plate glass windows have been put in the Pullman first floor.

Some important committee reports are to be heard at tomorrow's Chamber of Commerce meeting.

The recent furries of snow has put logging roads in rather an undesirable condition. In some places there is over two feet of snow in the woods, necessitating an expense in preparing the tracks for logging purposes. Lumbermen can't seem to be suited.

The St. Paul pays its rather undesirable compliments to several Duluth people in last week's issue. When the correspondence is discovered he will possibly find Duluth wants to live in.

The new risk will be opened this week. Valer D. Oles, the marauding leader, is much worse and has been taken to St. Mary's hospital.

City Clerk Budden is again at his desk after six days' absence with influenza. Three of his children were similarly affected. The county commissioners did not meet today, but will get together tomorrow.

Second naturalization papers were issued to Franz Kolditz today.

The new skating rink of McLeod & Kilb on East 5th street between Fourth and Fifth avenues east, will be opened for the first time tonight. The formal opening however will take place later, when Walker's rink will be in operation.

The sixty-four real estate transfers recorded yesterday were:

Acres adjoining Lakeside.
2, W. MARKLELL,
330 1/2 Hotel St. Louis block.

If you want to buy or sell lots in Duluth, address see CHADLEY & MISHLER, 24 and 25 Exchange Building.

Unattractive literature furnished free upon application at Room D, Hunter block.

DISTRICT COURT OPENS.

With Far the Largest Docket on Record in This District.

Disposition of Cases to be Tried, Continued or Settled.

A New Grand Jury Empaneled; Court Notes in General.

The January term of the district court for the Eleventh judicial district (St. Louis, Lake and Cook counties) convened this morning, with Judges Sears and Ensign on the bench. The roll of the grand jury revealed only nine out of the panel of fifteen, none of the Grand Jurors being present.

A special venire for four grand jurors was issued, and the call of the calendar was taken up, with the following result:

NEW CASES.
To be tried in vacation—Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515

IT'S ALL OVER TOWN.

ALL ABOUT THE GREAT BARGAINS WE OFFERED AND THE LARGE NUMBER OF SALES WE MADE DURING THE MONTH OF DECEMBER.

Oh, yes! We know all about how THOSE OTHER FELLOWS tried to make you think that they were THE PEOPLE, and that all other dealers would die when they came. They forgot that we were an old established firm, and that we buy our goods direct from the manufacturers; and that we could give away Pianos for the next few years if necessary.

PIANOS. -- ORGANS. -- PIANOS.

We don't intend to be undersold by agents, etc., who hail from—well, anywhere. "THEY CAME, YOU SAW, WE CONQUERED."

FRIENDS, ROMANS, COUNTRYMEN,

If you haven't been "talked to death" by agents and so called music companies, lend us your ears; it's our turn to talk now. For the next thirty days we will knock the prices DOWN, DOWN, DOWN, and offer greater bargains than ever: Second hand Square Pianos, \$25 to \$100; fine second hand Pianos, \$100 to \$150; second hand organs from \$25 up.

OUR MANUFACTURERS ARE MAKING SOME MAGNIFICENT NEW PIANOS ESPECIALLY FOR US.

If you want an elegant Piano at a great bargain, better come and see us. We will sell you, if necessary, at cost. Call and hear our world-renowned BRADBURY. Also our great medium priced Pianos, that meet the popular demand. We will put the following beside anything made, for competition: DECKER & SON, HALLET & DAVIS, MASON & HAMLIN, CHASE, SHONINGER, and others.

Respectfully yours,

G. T. PORTER & SON.

2 East Superior Street, Duluth, Minn.

NOTICE---We make special terms to Churches and societies. References, Father Mathew Society, Sisters in charge of St. Thomas School, Swedish M. E. church, West End; Father Timothy, West End; M. E. Church, Oneota.

AN UNPRECEDENTED WEEK

Seven Days in Real Estate
Never Before Equalled
in Duluth.

The Recorded Transfers are
Nearly Two Million
Dollars.

Reasons for a Continuance
of Activity Briefly
Stated.

Duluth has been used to big things, and large figures are bandied about as though representing merely some meagre idea of passing moment, but even Duluth cannot but be surprised at the total of real estate transfers filed for record in the past week, a total aggregating \$1,621,588, an average of \$270,281 per day. There are probably few cities in the Union where such a showing can be made. The following is the list:

	No.	Total.
Tuesday	19	\$20,000
Wednesday	18	\$20,000
Thursday	23	\$20,000
Friday	23	\$20,000
Saturday	12	\$20,000
Sunday	15	\$20,000
Total	100	\$1,621,588

While all this has been going on there has apparently been little excitement and the general run of trading in real estate has been quiet. There is the same inquiry that has been noted for several weeks past, especially for Superior street business property and of other property for improvement, while West Duluth and the hill properties have shown increased activity while acreage west of West Duluth has taken a lull. The activity in Old Superior, that for a time was flourishing, is no more, nor is there any sign of life in the foolish boom of those who bought and marked up the prices of the South Superior company. At West Superior there is the same stagnation there has been for a year or two and which will probably continue until the people there arouse and do something for themselves, not relying longer on a company that is working exclusively for No. 1. This seems to be the present situation.

For the faith that is in them, Duluth people have many reasons, a brief resume of which will not fail to be of interest. Perhaps first is the settlement of the great transportation problem, by which is assured for this city the handling of the commerce of the Northwest without Chicago interference, both in west-bound merchandise and in east-bound coarse grains and other products. The mail changes in the railway system by the building of the Duluth & Winnipeg and other roads that will make Duluth the center of a vast and rich system of its own, for supply and distribution, is another. The growth of manufacture here in the past twelve months, by which 800 laboring men and mechanics have already been added to the city's permanent wage-earning force, and by which, when in full operation, works now under way will increase the 800 to 3400 industrious and prosperous men.

chanics and iron workers, this growth is another reason. Not only in itself is this manufacturing growth of importance, but in showing what manufacturing can do here, and in calling the attention of others to Duluth and its advantages. Another reason still is the growth and successful business of the wholesale firms here. These are the most important features of growth, and are surely enough to excite almost any community.

The indications of building for next year are as far as ever, in fact increase as weeks go by. It is safe to believe that there will be no unoccupied Superior street property for sale next fall at anything like the prices offered by most people now, while the unoccupied residence lots will be fewer by many hundred than now. It is natural, therefore, that there should be a very considerable movement of property, and considering the fact that there has been little advance in a year or two, not a little increase in prices.

AT LAKEVIEW.

Expectations of improvement for this year's Annual Meeting held. The stockholders of the Lakeview Land company held an important meeting in their offices in the National bank building Saturday evening. The following directors for the ensuing year were chosen: O. P. Stearns, George C. Stone, D. G. Cash, Charles H. Graves and Wm. C. Sargent. Immediately after the election the board of directors met and chose as officers: President and treasurer, O. P. Stearns; secretary, Wm. C. Sargent. These officers have been held by Messrs. Stearns and Sargent since the company was first organized.

Many important changes in the affairs of the company were made. The capital was increased from \$125,000 to \$250,000, to be paid up. The company will, as of old, loan money to builders and encourage by all fair means settlement at the village of Lakeview. The company is now laying out 500 acres around Lester river, which will be called the Fourth division and which will be put on the market by May first. This will be the handiwork residence portion of the village, as a large amount of money will be expended in beautifying the grounds and grading the streets, and the land is planned topographically. One company has planned the Third division to Lester park, which lies north of the Second division. The plat will be filed in a short time.

Lakeview this year will be improved with all the conveniences of the claim. Sewers will be built and drainage will be made as perfect as possible. A light and water plant has been formed, and an electric plant will be built and water pipes laid in all the residence streets. Work on these improvements will go ahead at once, and contracts for them will be let within a few weeks.

Another Chapter. Another chapter in the famous struggle for the valuable Eaton & Merrill iron claim in 14-63-11, is added in new filings. After Secretary Vilas' decision last winter, and the throwing open of the land to entry, Draper & Davis filed soldiers' additional scrip on part of the claim. This soldiers' additional was issued to D. Moyer. It has lately been discovered that Moyer was dead at the time of the filing and has been for three years, so today W. W. Billson filed scrip on part of the land and Thomas J. Monahan filed a homestead claim on the rest. These two filings include lots 2 and 5. With the filings were filed a transcript from the records of the probate court as proof of Moyer's death.

Gridley & Mishler are exclusive agents for Dodge in Dodge addition.

WEST END.

A Difficult Surgical Operation: General Second Division News.

One of the most important operations which has been performed in this city for a long time was one which was done at St. Mary's hospital Saturday night. The name of the patient was Philip Hughes and he was about a year ago under the care of Dr. A. A. Ames of Minneapolis. The operation is the removal of the knee joint and it was of great interest to the doctor on account of its complications. The tibia and fibula of his left leg had slid back of the femur and as they could not be pulled back into place parts of these bones had to be saved off and the whole leg made straight by placing the ends of the bones together. The doctors who performed the operation were Drs. Magnus Ritchie, Horace Davis, Taylor and Brunet.

The dress carnival in Erickson's Parlor skating rink was a very successful affair. The costumes were both fine and grotesque. Miss Anna Jorgenson received the first prize, a silver cake basket, and Thor Ruess received a gents dressing case. Lawrence Bushnell received the umbrella for the most grotesque costume.

Joe Maurer was treated to quite a surprise Saturday night by a party of his friends. A very pleasant time was spent. The installation of officers of Zenith City Lodge, No. 100, I. O. O. F., took place tonight in the hall in the Allen block.

Bocter Swenson, the well-known Superior street merchant, has returned from a short business trip to the Twin cities.

M. McDonald, the barber, is out again after a short illness.

TEMPLE OPERA NOTES.

Treasurer Miller will be on duty this week. Manager Haycock will maintain 25 and 50 cents as matinee prices, although managers of troupes strenuously object to the low figures.

There will be a "Jim, the Penman" matinee Wednesday afternoon. The engagement of A. M. Palmer's company in "Jim, the Penman" at the Temple opera house is interesting for one very particular reason. The present tour of the play is emphatically affirmed to be the final one. That the final tour of this great play should be made memorable and worthy of it, the company engaged is a strong one. Joseph Whiting will play James Ralston, a part in which he has added much to his already good reputation as a fine actor. Ellie Wilton, who plays Nina, Ralston's wife, has only undertaken that part this year, but wherever the company has appeared she has aroused enthusiasm.

The Baron Hartfeldt of Charles Kent is a study. Edward Travers plays the drawing, drowsy, clumsy Captain Redwood. The other characters in the great play are in competent hands.

'Twas the Coldest Yet.

The cold Northwestern wave was too much for the warm southerly current which attempted to reach here Saturday, and the warm current was so badly disfigured in the contest that it gave up. The temperature was this morning very low, the average for North-west Territory, Montana, Dakota and northern Minnesota being about 20° below zero. At 7 this morning the minimum reached here was 10° below zero, and the observer in charge says the probabilities are that tomorrow morning will see the mercury still lower.

Gridley & Mishler will sell you one or a hundred lots in Dodge addition. Now is the time to buy.

THE ORE MARKET.

A Sharp Demand for Non-Bessemer Exported; Other Ore Notes.

Iron Trade Review: The market has not recovered as yet from the holiday lull, and, although a number of sales are reported, they play no role in the grand aggregate. It is expected, however, that with the resumption of business there will come a sharp demand for non-Bessemer ores on the part of the foundry and mill interests which, during the tremendous rush for Bessemer, had almost been lost sight of. There has been considerable non-Bessemer sold, of course, but, compared with Bessemer ore, that branch has been proportionately inactive thus far, so that the new year will witness some heavy transactions. There is no change in the situation as regards the condition of foreign ores, and the steel makers east of the Alleghenies have not, as yet, any definite line of policy—whether they will at an early day engage their Bessemer pig in the central West, or whether they will look to the tide-water furnaces for the bulk of their supplies.

There has been more proof of the real scarcity of desirable iron in Chicago the past week than buyers were hitherto willing to believe. Some of the best known Ohio brands have disappeared from that market, the furnaces having taken Bessemer contracts. Other Ohio softeners were withdrawn because oversold for the next sixty days. The Illinois Steel company are understood to be offering no foundry or forge iron at any prices, though running two furnaces on these grades to fill orders already taken. Calumet is also heavily sold. The sources of supply, therefore, are almost completely shut off. Of Lake Superior charcoal irons, nearly everything in sight appears to be sold, and \$25 is now a figure very freely talked among sellers for further forward delivery orders.

Southern irons appear to be the only reliable source of supply, and prices of these are higher than buyers are quite ready to pay.

CITY BRIEFS.

Coal is now pouring into the South and West from Duluth docks in great volume. The recent change in the weather has, in full effect upon the coal business. Coal shipments have increased 25 per cent over two weeks ago. The meeting of the school board took place Saturday night. Action is expected to place the escapes on some of the buildings was deferred. The city schools opened this morning for the regular winter term.

There were sixty-four transfers filed for record today; this is the largest yet. The following variations in temperature were recorded at Pioneer Fuel company's office, First St. Louis: 12 m, 15 degrees; 3 p. m., 19 degrees; 6 p. m., 16 degrees; 10 p. m., 13 degrees; 1 a. m., 9 degrees below; 4 a. m., 9 degrees below; 12 m, 5 degrees below; 2 m, 4 degrees; Minimum, 9 degrees below; daily range, 23 degrees.

Visited Cloquet Masons. City Assessor J. E. Cooley, Engineer T. W. Hugo and County Treasurer J. P. Johnson were a quartet of Masons who took in the hospitalities of Cloquet, and assisted in the installation of officers of the local lodge. They report magnificent treatment at the hands of the Cloquetites, who, fated, winned, dinled and treated them with every consideration.

At Municipal Court. Today was a busy day at the municipal court, and a large number of attorneys were in attendance. The west Territory business consisted of four drunks, G. O. Leuberg, who got seven days; Robert Boyd, drunk, same dose; Frank Ryd and Frank Marcus were each fined \$5, which they paid. C. Baker and William Gruenert were fined \$10 and costs for violating the health ordinances.

DUDLEY'S BLOCKS OF FIVE

"The Tall Sycamore" Brings

Up the Question in the

Senate.

He Arraigns Dudley and Also

Lugs in President Har-

risson

In a Way that May Delight the

Partisan Democratic

Heart.

WASHINGTON, Jan. 8.—After some

routine morning business, Mr. Voor-

hees in the senate called up a resolution offered

by him yesterday in relation to alleged

interference by Mr. Chambers, U.S. dis-

trict attorney at Indianapolis, to prevent

the arrest of W. W. Dudley on a charge of

violation of the election law of Indiana,

and proceeded to address the senate.

He spoke of the crime of Dudley in the

last election as having inflicted an inde-

lible stain on a memorable election, and

and yet, by constant vigilance in the

result that followed.

The fact of the crime was open, un-

iversally known and practically confessed

by its perpetrators and his co-adju-

tor, and yet, by constant vigilance in the

result that followed.

HOTEL ST. LOUIS BUILDING.

City Briefs.

The actives held an interesting meet-

ing last evening, and although Mr. Har-

per was unable to deliver his expected

lecture on the artistic features of pho-

tography, those present enjoyed a dis-

cussion of the methods of producing lan-

tern transparencies and made prepara-

tory arrangements for getting up a se-

ries of views of Duluth. A good deal of

material has been promised and it is ex-

pected that the members will bring in

their negatives at the next meeting.

N. A. Leslie, the engineer in charge of

the Hartman Electric plant, fell down a

ladder last night. Owing to the excite-

ment caused by Mr. Leslie's accident,

the fireman failed to keep up steam and

it was necessary to shut off lights for

an hour or more. Leslie is somewhat

bruised.

The banquet to be given in honor of

Bishop McElrath will be the most

elaborate ever held in Duluth. Covers

will be laid for 200 guests.

Eleven lots in Munger's subdivision,

bought some years ago by A. C. Ely, and

on which Ely brought a riparian suit

against the St. Paul & Duluth road,

have been bought by A. Harrington of

the Van Duzen-Harrington company,

Mankato. The riparian suit has been

decided adversely to Ely and the new

purchaser will hardly appeal a case to

which Judge Stearns has given so much

attention. The property is bought for

immediate improvement, of which more

later.

FULLY 3000 CASES

There Are, or Have Been, Not
Less than that Number
in Duluth

Of Influenza or the Grip, but
Almost Always of Mild
Type.

More Talk With Doctors on the
Subject; Some Good
Points.

"I don't suppose," said a Duluth physician last night, who had just returned from the East, "I don't suppose there are or have been more than a dozen cases of the grip in Duluth, that is the grip as they are having it in New York and Boston, where it is really a very decided illness, but there certainly are a great many cases, several thousand, I don't doubt, of a sort of influenza or fever-cold, with varied symptoms. But there are some of the cases, especially those that result fatally, for I don't believe anybody will die of it here now in Duluth, as I saw in any Eastern city last week."

"They're dying of it elsewhere, doctor, why shouldn't they here?"

"Well, the climate is better for all lung and bronchial difficulties than the Eastward or even at interior points. I don't believe you could find a better climate to do away with the evil effects of influenza and grip than that we have had the past few days, and if we had had an old-fashioned Minnesota winter we wouldn't have known anything of it, except from newspaper telegrams. Yes, the climate of Minnesota, and especially of Duluth, has undoubtedly kept the disease in a very mild form, and has prevented hundreds of cases from growing serious."

Said a homoeopathic of wide practice: "In the past week I have treated considerably over 100, who have all suffered more or less severely with influenza. The disease seems to take many forms. In one it would attack the bowels first, and spread over the system; in another the limbs and back would be lame and sore as after a hard day's jolt, others will have high fever and others only an aggravated cold. The fever is perhaps most prevalent, and often I find three or four degrees of fever for a day or a week. A good many patients are unnecessarily scared, for unless one has very weak lungs there is little danger here. In the climate conditions there might be danger of pneumonia to many of comparatively good breathing machinery."

"Judging from my own experience and that of others," said another doctor of large business, "there have been in any two weeks, or are now fully 3000 cases of what we and the patients are pleased to call the grip. Now mind you I don't say there have been that many cases of the actual disease, for I do not believe there have been twenty-five, but of aggravated colds, colds with fever, colds with chills, bronchial difficulties, rheumatic troubles and the like the number has been unprecedented and as high as the claim. I do not say, either, that there has been any 'microbe' or 'grip' germ out here, that any such germ has been fooling with us, though it looks like it. The weather has, until the past few days, been in good shape, been just right to give colds and all that class of complaints a good start and the whole thing may be due to the weather. I give out colds, in good doses, a hot lemonade and a mustard foot-bath on retiring, and lots of warm clothing. A Turkish bath, if one wouldn't add to the cold, or an alcohol rub, would be first-class remedies, but a little extra care in not tempting the germ, if there is one, by sitting in draughts, or going improperly protected is worth a dozen 'cure-alls'."

Said one: "We certainly have an epidemic of influenza in Duluth at present, and some of the cases which are being distinguished from the regular Russian form. I think there are three distinct varieties of the disease, characterized by cold in the head and acute catarrh of the upper air passages; where the digestive tract and liver chiefly suffer, and where the nervous system is mainly affected, as shown by neuralgia of the brow, etc. The epidemic is widespread in the city, the disease is rather mild and there is little tendency to grave complications. In this respect it differs from the type prevailing in the East, where pneumonia is causing an unusually large death rate. The conditions do not seem so favorable in this country for the disease to prevail in its worst form, and epidemics are always more severe in Europe than in America. The disease is dangerous only to the very aged and to young infants. The latter, however, are much less susceptible. The disease is not the grip of France. The real grip is a repulsive disease, the patient lying in bed without energy enough to rise. The form here prevalent is a kind of catarrhal cold which this season has become epidemic."

A GALA NIGHT.

Installation of Officers by Grand Army and
Auxiliary Units.

The officers of Willis A. Gorman post, G. A. R., the Sons of Veterans and the Womans Relief corps were installed last night at Odd Fellows hall by C. A. Parker, junior vice department commander of the G. A. R., from Minneapolis. After the installation of the officers those present enjoyed a hearty camp fire lunch served by the Womans Relief corps. Quite a number of military visitors were present from West Superior.

After the installation of the officers of the Womans Relief corps, Mrs. Wm. F. Davey, past corps president, in her usual happy way made a few remarks, and presented Mrs. Ann Dalley, past corps treasurer, with an elegant gold watch, and Miss Anna M. Lloyd with a beautiful toilet set in appreciation of their valuable services to the corps during their term of office.

A SWIFT OLD SUPERIOR.
The Superior Consolidated Land company has decided to open its doors to the public and commence business in a week or two. Property to the value of over \$200,000 has been placed in the pool. It is expected that when the company commences business that a site will be created at Old Superior.

In order to give everybody a chance to participate in the benefits of our great holiday reduction sale, I have decided to continue it for the balance of this month. Don't miss the opportunity to get reliable goods at away-down prices. Sale closes positively Friday, Jan. 31. Andrew Jackson, jeweler.

A big snap in West Duluth. We have four lots on First avenue west and Main street. Price \$3000; easy terms.
D. H. STEVENSON & CO.,
43 Exchange building.

PROBLEM OF GOVERNMENT.

Hon. Seth Low Continues His Discourse
on the Subject.

[The Herald publishes below a second installment of the address of Hon. Seth Low of Brooklyn, to the students of Johns Hopkins university. In view of the interest awakened in Duluth over municipal government and the future of this city, the matter will be of interest. It will be continued from day to day till completed.]

The second element of difficulty incident to American cities arises from their mixed population. No other cities in the world are obliged to assimilate and provide for such various nationalities and races of men. London, no doubt, has an immense foreign population; but London, nevertheless, remains a distinctively English city. The signs over the stores, and every other evidence which meets the eye, all bear witness to the fact that London is distinctively and entirely English. American cities have quite a different character. The business signs indicate their mixed population, no less than the conversation one may hear on the street car or in the street. This mixture of population implies differences of ideal, so that it is, in many ways, especially difficult in an American city to bring public sentiment up to the same level. The most conspicuous trouble arising from this situation is felt in connection with the liquor traffic. Upon that point every American city is divided against itself, and divided, not along the lines of individual differences of thought, but along the lines of practically conflicting civilizations. The old Puritanism, with its extreme phase, stands for prohibition. The continental idea antagonizes this sentiment in its demand for the widest liberty. The degree of enforcement of any law bearing upon this question is the exact measure of effective public sentiment behind the law in a given community. There are three kinds of law upon the statute book. First, laws which everybody believes in and obeys. Second, laws which nobody believes in, and which are not enforced at all. These laws are blue laws. Third, laws like the excise law, which stand just between the two; laws which particular communities believe in and parts do not. The reason why a law is not enforced is because the public sentiment which placed the law originally on the statute book has gone from behind it. This indicates that a law is of value only as public sentiment behind it makes it efficient. This again makes clear that, in American communities, exposed as they are to this conflict of civilizations as to the liquor law, the first requisite of wise action is to decide by local opinion which civilization is to prevail in a given community. The unit of territory by which the option is to be exercised should be defined by the local opinion of the officers whose duty it is to enforce the law. The local law is decided by local opinion which civilization it prefers, that which demands prohibition or that represented by the continental idea, the state may then properly prescribe for the locality the conditions upon which the sentiment of the majority shall be carried into effect; but it is useless for the state, acting as a whole, to pass a law which must be enforced by localities, unless the sentiment of the locality is behind that law. The detrimental effect upon American cities of these conflicting ideas in their midst is seen in the tendency of elections to turn upon issues like the liquor question, rather than upon the general question of good administration.

[To be continued.]

WEST END.
Overcoat Thieves: A Revival in Progress.
Some General Notes.
Overcoat thieves are again, making themselves known. "Two overcoats were stolen from dummies in front of the Big Bear clothing store, Monday evening by the barrel race which was announced to take place last night at the Parlor skating rink was postponed until Thursday, because of the failure of the electric lights. The race will be continued on a very exciting and should bring out a big crowd."

The West End Social club will hold its fifth reception tonight. A business meeting to which good attendance is requested, will be held before the dance. The Ladies Aid society will furnish the refreshments.

Considerable interest is being taken in the revival meetings at the Second Baptist church, which are being held under the management of Rev. A. H. Ballard. The attendance during the past week has been excellent. The services of Francis Long, of the firm of Long & White, wholesale cigar dealers, left this afternoon for Philadelphia, New York and other Eastern cities.

William Barnett has returned to Hamline college to renew his studies there.

SPORTING NOTES.

Frank Hayes' athletic club rooms are in the O'Brien-Knowlton building.

High Loner, the colored athlete, offers to jump any man in America one single, two or three standing jumps for \$250 to \$500 a side.

Thomas F. Delaney, the ex-champion amateur runner, has accepted Wm. McClelland's challenge to run any man in America ten miles for the championship. Jim Smith's backer has paid Slavin the \$300 stakes.

Tommy Danforth has challenged Jimmy Lynch to box fifteen rounds. Slavin is to be married to a barmaid at the Hayland Hook hotel, Margate, where he trained.

Arthur Clappett, alias Sullivan, alias Stanley, an athlete who has been releasing rich harvest in Australia by pretending to be the converted brother of champion John L. Sullivan, is on his way to America. He made \$2000 in nine months and most of the money came from women.

Trayer of Cornell, who played half-back against Yale so effectively, is probably the best all-round athlete in his college. He holds the university record for the running broad jump, is champion single sculler, and has rowed on two Varsity crews, is a good man on the wheel, one of the best sprinters, holds the second best record of the college in lifting weights, and is put down as winner of the hammer and shot events on next field day.

Manager Hanlon today had Tommy Quinn, Baltimore's crack catcher, who signed with the Brooklyn Players league, transferred to Pittsburg, and will tomorrow sign Ad Guent of last year's Chicago League club to play with the Pittsburgh Players club this season.

Notice is hereby given that the partnership heretofore existing between W. B. Dixon and E. T. Filley, under the firm name of Dixon & Filley, is this day dissolved by mutual consent. The business after this date will be carried on by W. B. Dixon who will assume all the obligations of said firm.

A COLONIZATION PLAN.

To Bring Several Families of
Market Gardeners from
Maine.

A Sensible Move for a Develop-
ment Practical and
Good.

Some twenty years ago Joel Colby, a farmer of Bingham, Maine, bought over 100 acres of land, the northwest of 6-5-13, of J. D. Howard, for \$5 per acre. He paid the small taxes until two years ago, when he moved here with his family and began improving the land, and he started what is already a very flourishing and prosperous market garden. In the past year he has sold to old friends in Maine four or five tracts at about half the market price, on the understanding that they should settle and engage in market gardening too. In April or early May he expects these people to come and begin work, when there will be quite a settlement on the Howard road. The land is good, is only four and one-half miles from the city, and the settlers are all experienced in the business, and intend to increase the number of settlers as rapidly as possible.

This matter is of much more importance to Duluthians than they generally realize. There is nothing so much needed here now as more market gardeners, more farms, more raisers of eggs and chickens and beef cattle. The county has built a number of good roads and the settlers are coming in, but not so fast as there is room for them, nor so fast that, so great is Duluth's growth, they make any appreciable difference in the amount of food supplies shipped in by rail. As The Herald has frequently shown, there is not so good a market, for instance, in America for farm products as Duluth, the local consumption being double that of the divisions will be composed as follows:

First division, in charge of Mr. Hoppa, assistant marshal, will be headed by Walker, military band, and mounted escort to the city in the order named.

Second division, in charge of Frank Kelly, assistant marshal, headed by the Superior military band, and mounted escort to the city in the order named.

Third division, in charge of Joseph Conture, assistant marshal, headed by the French band, with St. Jean Baptiste and St. Boniface societies.

Fourth division, in charge of Capt. DeLoe, assistant marshal, headed by the French band, and mounted escort to the city in the order named.

The following assistant marshals will be the grand marshals: Capt. DeLoe, with St. Jean Baptiste and St. Boniface societies.

Two fine lots in Central Park, Superior. A bargain. HARRIS BROS.

AT THE SCHOOLS.

Many Absences: The Term Work Starting
is Very Warm.

The public schools opened in due form yesterday. Superintendent Denford reports serious reasons made in the attendance of pupils. The indisposition is not confined to the pupils, three of the teachers being incapacitated, Miss Barnes, Miss Crawford and Miss Fanny Kelly. Their places are being temporarily filled, Miss Krelwitz taking charge of Miss Barnes' department, Miss Fannie Burton of Miss Crawford's room, and the regular substitute is officiating in Miss Kelly's place. The latter is a newly-appointed teacher, who is somewhat inexperienced in her term. Then there are about twenty absentees from the high school, and the attendance at the Lincoln school is materially reduced by sickness and from other causes. The average attendance at the Lincoln school is about 100, and at the Washington school about 120.

The opening of part of the magnificent new Lincoln school adds two new rooms in this district. The Monroe school is temporarily closed. When the Lincoln school has been organized and thoroughly graded the Monroe will be utilized for the accommodation of the lower grades. This will probably be accomplished by early spring, so that the school will not be kept closed longer than two or three months. All the schools have been restricted, the Lincoln district being from Second to Eleventh avenue west, and the Washington district from Second to Seventh avenue east. Between Second and Seventh avenues east the district is below Fourth street. The Jefferson school district is from Second to Eleventh avenue west, and the Adams from Eleventh to Twentieth avenue west. The Monroe district will undergo some slight changes when the school is reopened. Madison district will be all south of the Northern Pacific railroad on Kieps Point, and all the territory south of the St. Paul & Duluth railroad comprises the Cleveland district. Park Point remains unchanged. Franklin district is from Second to Eighth avenues east, above Fourth street and is a large and rapidly-growing district, having increased in two years from two to eight rooms, with an early prospect of increased facilities being necessary.

The superintendent says that notwithstanding the adverse circumstances encountered at the opening of the year, the pupils of the high school are entering upon their studies with great earnestness, and that this spirit is manifest throughout the entire school district.

Notice is hereby given that the partnership heretofore existing between W. B. Dixon and E. T. Filley, under the firm name of Dixon & Filley, is this day dissolved by mutual consent. The business after this date will be carried on by W. B. Dixon who will assume all the obligations of said firm.

CITY BRIEFS.

Chief Health Inspector Rosseter is on
duty after a ten-day's siege of in-
fluenza.

Alderman Beattie is quite ill with the
fashionable malady, being confined to
his bed.

Mozart's "Twelfth Mass" will be sung
at the Catholic church next Sunday.
The music will be given by a picked
choir and full orchestra, under direction
of Professor Schilling.

There was one drunk at the police
court this morning. Seven days.
The following variations in temperature
were recorded at Pioneer Fuel com-
pany's office, Hotel St. Louis: 12 m.,
9° below; 3 p. m., 0°; 6 p. m., 0° above;
10 p. m., 5° above; 7 a. m., 20° above;
9 a. m., 19° above; 12 m., 18° above.
Maximum, 20° above. Minimum, 9°
below. Daily range, 29°.

Humphrey John was buried this
morning.

The remains of Mary A. Simpson, who
died Sunday, were sent to Canada last
night.

PERSONAL.
Dr. Lee and wife, who have been visit-
ing with Herbert K. Spencer, returned
to their home at Cleveland today.

Mr. D. W. Merrill returned yesterday
from a two weeks' visit to Boston.

Mr. A. A. Genrich left last evening
for a week's trip South and East.

Mrs. S. H. Rothermel and Mrs. Ward
Palmer left last night for visits to relatives
in Philadelphia.

Mrs. G. J. Cressman and Mrs. L. M.
Crawford started yesterday to Seattle,
intending to locate in business there.
Both are well known here.

TO ESCORT THE BISHOP.
Line of March and Societies to Take Part
in the Exercises.

The following program is published
by the grand marshal in charge of the
procession to escort Bishop McGolrick
from the Eastern Minnesota depot to the
Church of the Sacred Heart, corner of
Fourth street and Second avenue west
tomorrow evening.

Grand marshal, in charge of the procession
will report not later than 6:45 p. m.,
Thursday evening, January 9, at the
corner of Superior street and Sixth avenue
west.

The divisions will be composed as follows:
First division, in charge of Mr. Hoppa, assistant marshal, will be headed by Walker, military band, and mounted escort to the city in the order named.

Second division, in charge of Frank Kelly, assistant marshal, headed by the Superior military band, and mounted escort to the city in the order named.
